PROFESSIONAL SUMMARY

Entry-level DevOps and Cloud engineer with hands-on experience in AWS infrastructure, CI/CD automation, and Linux administration. Skilled in building and supporting deployment pipelines using Jenkins, Git, Terraform, CloudFormation, Docker, and GitHub. Comfortable with monitoring, troubleshooting, scripting, and cloud operations in production and staging environments. Strong focus on reliability, automation, and secure infrastructure delivery. Ready to contribute to a DevOps team by improving deployment workflows, supporting cloud environments, and enhancing system stability.

CORE COMPETENCIES

- Cloud:** AWS: EC2, VPC, S3, IAM, RDS, ALB, Auto Scaling, Lambda, CloudFront, CloudWatch
- DevOps Tools:** Jenkins, GitHub, Git, Docker Hub, Nginx, AWS CloudFormation, Terraform
- CI/CD:** Jenkins Pipelines, GitHub Webhooks, Build/Test/Deploy Automation, Release Automation
- Monitoring / Observability:** AWS CloudWatch, CloudWatch Logs, Basic Alerting, Log Analysis, Incident Troubleshooting
- Scripting:** Bash, Shell Scripting, Python (basic automation scripts)
- Containerization:** Docker, Kubernetes basics, Containerized application deployment
- Infrastructure as Code:** Terraform, AWS CloudFormation
- Operating Systems:** Linux, Ubuntu, Amazon Linux, command-line tools, package management, users and permissions
- Networking & Security:** VPC, Security Groups, Load Balancing, IAM, basic networking concepts
- Version Control:** Git, GitHub, branching, pull requests, code review workflow

EXPERIENCE

- DevOps / SysOps Support Engineer, Skeletos IT Services** 02/2026 – 04/2026 | Pune
 - Monitor cloud and server environments to identify infrastructure issues and support timely resolution.
 - Assist with troubleshooting deployment, Linux, and operational problems across production and staging systems.
 - Support cloud infrastructure tasks, including environment maintenance, access checks, and routine operational activities.
 - Automate repetitive admin and support tasks using shell scripting and standard DevOps workflows.
 - Collaborate with development and operations teams to resolve incidents and improve service reliability.
 - Document troubleshooting steps, operational procedures, and system support guidelines for internal use.
- Trainee – AWS Cloud / DevOps Engineer, Cravita Technologies India Pvt. Ltd., Pune** 06/2025 – 11/2025 | Pune
 - Worked with AWS services including EC2, VPC, IAM, S3, and CloudFormation to support infrastructure operations.
 - Assisted in building and managing CI/CD pipelines using Jenkins, Git, and GitHub for application deployments.
 - Supported Linux-based systems through basic administration and troubleshooting.

PROJECTS

- Scalable Photo Sharing Application**  , [GitHub Repo](#)
Technologies: AWS, Terraform, Jenkins, CloudWatch, S3, ALB, Auto Scaling, RDS, CloudFront
 - Designed and provisioned a highly available AWS architecture using Terraform.
 - Built CI/CD workflow from GitHub to Jenkins to AWS to automate build and deployment steps.
 - Added CloudWatch monitoring and centralized logs to improve visibility and incident response.
 - Applied IAM least-privilege access and security groups to strengthen infrastructure security.
- Containerized Java CI/CD Pipeline**  , [GitHub Repo](#)
Technologies: Docker, Jenkins, Maven, GitHub Webhooks, Docker Hub
 - Containerized a Tomcat-based Java application and published versioned images to Docker Hub.
 - Created a Jenkins pipeline triggered by GitHub webhooks for build, test, and artifact publishing.
 - Reduced manual deployment effort by automating release steps and improving consistency.
 - Supported rolling redeployments using container-based delivery and health checks.
- AWS Cloud Cost Tracker & Visualization Dashboard**  , [GitHub Repo](#)
Technologies: AWS Lambda (Python), CloudWatch, EventBridge, S3, Cost Explorer
 - Automated weekly AWS cost reporting via Lambda and Cost Explorer, and published a static dashboard to S3 for stakeholder visibility.
 - Implemented CloudWatch event triggers and SNS notifications for cost anomalies and schedule-based reporting.

EDUCATION

- B.Sc. in Information Technology, Mumbai University** 2023 – 2025
GPA: 8.00

CERTIFICATIONS

- Google IT Support Professional Certificate – Coursera | May 2025
